When you get home, don't touch anything

1

Take your shoes off

2

Disinfect your pet's paws if he has gone out

3

Leave handbag, wallet, keys, etc. in a box at the entrance

4

Take off your outer clothing and put it in a laundry bag with bleach, recommended at more than 60 °C

5

Take off your gloves carefully, throw them away and wash your hands

6

Take a shower; if you can't, wash thoroughly all exposed areas hands, wrists, face, neck, etc...

7

Use bleach to clean the surfaces of all objects before putting them away prepare bleach, 20 ml per liter of water don't forget to wear gloves

8

Clean your phone and glasses with soap and water or alcohol

9

Remember that it is not possible to undergo a complete disinfection, the goal is to reduce the risk!

Only one parent at a time can go to the supermarket

When you go out, wear a long-sleeved jacket/coat

Tie your hair back, don't wear earrings, bracelets or rings
 you will touch your face less

Put on a mask and gloves before going out

Don't use public transportation

Crumple up your tissue and throw it in a closed trash can

If you cough or sneeze, do it in the inside of your elbow, not in your hands or in the air

Do not touch your face until you have thoroughly washed your hands

Wash your hands after touching any object and surface, or use (dry only) a disinfectant gel

Maintain appropriate social distancing and avoid unnecessary physical contact
